

Loddiswell Primary School Curriculum Map- Long Term Overview 2021 - 2022

"Together we value, inspire, achieve and believe which empowers us all to be the best we can be".

All of our School Improvement Action Plans/ ECM focus, link to the Spiritual, moral, social and cultural development experiences and ethos within our school family

At Loddiswell Primary School we adopt a holistic approach to encouraging and supporting all individuals in their journey to achieve their unique and full potential. We value the different interests and strengths of our pupils, uphold equity and promote equality for all by providing the support and challenge required for each individual pupil. We aim to inspire our students and are fully committed to developing a safe and stimulating learning environment that nurtures independent, life-long learning skills. We aspire to create an environment where adults and children are willing and able to take risks with their learning and where mistakes are valued and seen as learning opportunities.

An imaginative school curriculum provides a range of interesting activities that are well matched to the needs of the pupils, including disabled pupils and those with special educational needs" **Ofsted 2019**

We plan our curriculum in three phases. We have agreed a long-term plan for the Foundation Stage, Key Stage 1 and Key Stage 2 children. This indicates what topics and specific subject areas are to be taught in each term, and to which cohorts of children. The curriculum is based on an annual rolling programme which ensures that all children experience a broad and balanced breadth and depth of study throughout all subjects, as they progress through the school.

Our curriculum is planned to ensure the delivery of subject specific knowledge, understanding and key skills arranged in themes across a year. This is to ensure rigour, consistency, cohesion and progression in learning throughout all subject areas. As a school, we have identified four main "drivers" that underpin our curriculum. These are linked to the Spiritual, moral, social and cultural development experiences and ethos within our school family.

English

Reading

At Loddiswell Primary School we are fully committed to providing high quality reading resources for our children. We have well resourced library areas in each unit which are continually being updated through direct book purchasing and through our Service Level Agreement with Devon School's Library Service. Each classroom has an inviting reading area and a reading working wall with our main aim being to foster a love of reading and to develop each pupils' ability, understanding and enjoyment as a reader.

Reading: Phonics is taught daily using the Little Wandle Scheme of work. Where necessary, a Phonics intervention programme is delivered to individual and small groups of pupils to support reading development in Key Stage 2. A range of reading schemes (linked to the Book Banding system), are used across the

school to develop reading and comprehension skills. Children can also access "Big Cat Collins" an online reading scheme for pupils to access at home. All children who are not on Accelerated Reader are regularly "Bench marked" to assess the development of reading skills, and to ensure all children make good progress and move onto the next colour band to ensure a systematic development of reading, decoding and comprehension skills. In Key Stage 2 we use "Accelerated Reader". This reading programme helps teachers to further monitor pupils progress and ensure that all children are accessing a range of books to meet their needs and interests.

In Key Stage 1, whole class reading is taught through the week. Within these sessions teachers focus on VIPERS skills of vocabulary, inference, prediction, explanation, reasoning and summarising. Whole class reading is also taught in Years 3-6 daily. During these sessions, teachers use high quality age related texts to support children's knowledge and vocabulary of the wider curriculum. Our whole school reading approach helps pupils to foster a range of reading skills and transferable knowledge.

Reading Diaries

Each child, from Foundation Stage through Key Stage 1 and Key Stage 2 is given a reading diary which they themselves, parents and staff use to record progress of reading. Parents are encouraged to listen to their child read and share books regularly and to record this in their child's reading diary. As a school we value the importance that you as parents have in the development of your child's enjoyment of reading and we hope that you will play an active part in sharing books with your child as they journey throughout school.

All Key Stage 1 and 2 children undertake daily spelling activities in order to develop their spelling skills which is underpinned by No Nonsense spelling programme.

The development of English skills – all classes within the school use high quality texts as a basis of all English teaching. The school accesses "Texts that Teach"- A programme of learning developed by Babcock LDP to ensure continuity, cohesion and progression in the delivery of the English National Curriculum. Each unit consists of reading, speaking and listening and writing tasks. A Talk for Wiring approach is used throughout the school to ensure that children are given frequent opportunities to write for a variety of purposes and audiences. Our approach follows three distinct stages, text model, practising writing and independent writing. We use this approach as a basis to teach different genres of writing.

Text model

During this stage, pupils immerse themselves in the text in order to familiarise themselves with the language and features of the text. This is delivered through a variety of activities- such as story mapping, vocabulary games and role play.

Practising writing

Once children are familiar with the text, they are taught the key skills for the genre of writing. As they unpick the writing process to prepare for independent writing, they build up a toolkit. The building stage will include a range of activities such as creating their own story maps, exploring variation in sentence structures and learning how to control writing with appropriate punctuation and grammar. Opportunities are provided for children to practice key targets related to their identified next steps. This stage is completed when children have built a piece of writing based on the genre.

Independent writing

Once the children have these skills, they are equipped to be able to transfer them into an independent piece of writing which will demonstrate their knowledge of the genre they have been working on and incorporate the grammar and language structures. Throughout this section, grammar toolkits are

used which enables children to include the elements needed for a successful piece of writing. Children are given opportunities to plan their invented writing by amending story maps (editing, re-drafting, proof reading) and boxing up to structure a piece of independent work which is then used for assessment.

Oracy

At Loddiswell Primary School we aim to develop confident children, who can express themselves with clarity. We encourage our pupils to talk in purposeful and imaginative ways, to explore ideas and feelings, adapting vocabulary according to purpose, listeners and content. We also stress the importance of listening skills with the role of the listener being as important as that of the speaker. The children learn about predicting, persuading, reflecting and debating as part of their oracy activities.

Mathematics

Mathematics is taught through a mastery approach. Pupils are taught through whole class interactive teaching where the focus is on all pupils working together on the same lesson focus. Lessons are carefully sequenced to support the children in their understanding through the use of concrete and visual resources. Learning is built up in small steps and the children are given the opportunity to discuss and rehearse their learning before moving on. The children are encouraged to explain their answers showing their depth of understanding by reasoning and problem solving. The teaching of mathematics follows the revised National Curriculum Framework.

Lessons will start with the children revising key mathematical skills to develop fluency. The lesson's objective will be broken down into small steps to ensure that children are secure in their understanding before the lesson moves forward. (For any children who find the learning objective challenging, concrete resources and /or further adult support will be provided either within or after the lesson- this is Mastery with support). Small steps will be clearly modelled using concrete and visual resources with the children having time to rehearse these skills through practical and written activities. Depth of learning and challenge is developed through variation in activities and representations of learning.

There is a termly plan for each year group from Year 1 to Year 6; each term is split into twelve weeks. You will see from the overviews that a significant amount of time is devoted to developing key number concepts each year. This is to build their fluency as number sense will affect their success in other areas of mathematics.

	Learning	Relationships	Community
Emotional and Social Awareness Values	Attend and enjoy school Ensure all groups of children are literate and numerate to a high standard. Achieve stretching national educational standards Achieve personal and social development and enjoy recreation.	Develop positive relationships with each other Be physically healthy Mental and emotionally healthy Healthy Lifestyles Keeping safe Security and caring for each other Develop self confidence and successfully deal with significant life changes and developments	Engage in decision-making and support the community and environment. Make a positive contribution to society – be active citizens in the local community. Develop enterprising behaviour
Creativity Key Skills	Independent Enquires Enquire- be curious, question. Problem Solve-plan, make choices, reason. Apply Knowledge-form opinions, apply knowledge. Reflective Learners Evaluation- reflect, revise. Creative Thinkers use imagination, lateral thinking, Meta-Learning	Self-Managers Motivation- Persevere, Manage distractions, set goals. Emotional Skills-be self-aware, manage own feelings, understand others feelings. Empathy	Team Workers Be independent, collaborate, value and support others, communicate, listen.
Personal Qualities	Enquiry Adaptability Resilience	Respect Morality Co-operation	Thoughtfulness Communication
Understanding of the World And The Environment	Curiosity and interest in the world around, based on knowledge of the earth and its human and physical geography. Knowledge and understanding of the scientific basis that identifies the earth's environment as a common entity of value to everyone. Diplomatic Economic and Commercial IM	Open attitudes towards other ways of life and a predisposition to tolerance towards other cultures and their beliefs. Human values that combine respect for other ways of life with care and concern for the welfare and well-being of people in general. Spiritual Multiculturalism Human Rights	Recognition of the interconnectedness of human affairs(in place and time) as part of the holistic experience of life. Political - best interest of all in global terms Humanitarian Environmentalist Globalization
